

ANTK

**SECURE YOUR
PET IN THE
BLOCKCHAIN**

Whitepaper

ANTK.IO

this information document aims to demonstrate how the creation of a cryptocurrency associated with a revolutionary animal recognition application will create a new way of interacting with animals to better love, know and protect them.

Protecting an animal means offering a solution to facilitate the identification of an animal that is lost. The AnimalNationTK application invents the concept of Find to Earn which allows you to earn ANTK tokens when you identify a lost animal.

Loving an animal means spending time with it and taking a picture of it to share this moment with your friends and keep memories. AnimalNationTK invents the concept of Love to Earn, which allows you to earn ANTK tokens when you photograph your animal regularly during the day.

Knowing animals means taking part in games that will help you discover the animal world. AnimalNationTK uses the Play To Earn concept when gaming to earn ANTK tokens.

Blockchain technology will make it possible to create your pet's unique passport from the animal recognition module. This passport will allow access to the services of the application and it will be the link between the universe of the blockchain and your animal in real life.

disclaimers

This information document was written and published by ANTK, a SASU company, registered in the Nanterre commercial register under number 917 844 979, and whose registered office is located at 13 rue Auguste Gervais 92130 Issy les Moulineaux.

This information document has been published in view of the launch by the company ANTK of a public offering of tokens, also called "Initial Coin Offering" or "ICO", as defined by article L. 552-3 of the Monetary and Financial Code. The ICO consists of offering investors to subscribe to ANTK tokens. As ANTK is a company governed by French law, this public offering of tokens is governed by French law and intended for natural or legal persons.

The terms of the ICO and the rights and obligations attached to ANTK tokens are described in this information document, as well as in the General Conditions of Use of the ICO website. ANTK tokens do not in any way constitute financial instruments within the meaning of Article L. 211-1 of the Monetary and Financial Code and do not confer any rights other than those described in this information document.

Consequently, this information document does not constitute an investment solicitation or a prospectus within the meaning of EU Regulation 2017/1129 of June 14, 2017, as supplemented by EU Regulations 2019/079 and 2019/980 of March 14, 2019. Nor does it constitute an offer of securities or a solicitation to invest in securities in any jurisdiction.

This information document does not constitute a personalized solicitation or canvassing of the public. It is recalled that investing in a public offering of tokens involves the risk of partial or total loss of the investment. No guarantee is given as to the liquidity of the tokens acquired during the offer, the existence of a secondary market for these tokens, the value of the tokens acquired during the offer and the counter-value of these currency tokens. Potential investors remain solely responsible for their investment decision.

PETS IN EUROPE

Pets are very common in European households. Dogs, cats and ferrets are the most represented, but they are also the most numerous to be declared lost each year. Despite compulsory identification by chip for dogs and cats, many animals do not find their owners and are directed to pounds where they are offered for adoption after eight days.

The key numbers:

200 millions

Number of European households that own a pet

88 millions

Number of cats and dogs in Europe

8 minutes

An animal is declared lost every 8 minutes in France

50 000

Number of pets that enter the pound each year in France.

The AnimalNationTK application with its animal recognition module will provide valuable assistance in facilitating the search and identification of a pet declared lost.

DISCOVER THE DIVERSITY OF ANIMALS

The discovery of the richness of the animal world remains one of the favourite pastimes of Europeans. Zoo attendance in Europe is constantly on the rise and zoos no longer wish to be perceived as amusement parks but as places of education and public awareness of animal welfare.

21 millions

Number of visitors per year in
zoos in France

2500

Number of animal parks in
Europe

1400

Number of species in the largest
zoo in the world located in Berlin

The AnimalNationTK application with its animal recognition module can provide more interaction with animals during a visit to a zoo and can make visits more fun and educational.

THE AnimalNationTK APP

The AnimalNationTK application associated with the ANTK token will provide access to a set of functions and games centred on the protection and understanding of animals.

AnimalNationTK uses an innovative animal facial recognition module:

Animal facial recognition combined with Artificial Intelligence and an animal knowledge base developed by the AnimalNationTK team makes it possible to uniquely identify all mammals and provide a set of information relating to the identified animal.

For all other animals (birds, snakes, insects, etc.), the animal recognition module associated with the knowledge base allows you to define the breed of the animal or the type of insect and provides information on the animal.

AnimalNationTK uses the blockchain universe to offer innovative functions:

Love to earn

Receive ANTK token rewards when you spend time with your pet.

Find to earn

Receive ANTK token rewards when you help find an animal.

Keep to earn

Receive photos of your pet when you go on holiday without it and earn tokens at the Person who takes care of your animal

Play to earn

A universe of games that will use animal facial recognition to earn tokens.

Love To Earn AND THE AnimalNationTK PASSPORT

The concept of Love to earn will allow you to be rewarded with ANTKs when you spend time with your pet.

The AnimalNationTK passport to activate the Love To Earn function:

Your pet's unique passport will be created thanks to the animal recognition of Animal NationTK.

This passport includes an energy level that decreases when the animal is not identified regularly.

Every day, it takes a certain number of identifications spaced at least 10 minutes apart to maintain the energy level of the passport.

Rewards in ANTK:

If the passport remains active for a week the owner of the passport receives a reward in ANTK tokens. Otherwise, the number of days counter is reset.

Purchasing the AnimalNationTK Passport:

The user will have the choice between 3 levels of passport to be purchased with ANTK. Passports will have increasing purchase prices but allow for higher ANTK rewards.

	Number of photos per day spaced at least 10 min apart	Reward Level in ANTK
Basic passport	3	1
Premium Passport	5	2
Gold Passport	7	3

Find To Earn

The concept of Find To Earn allows you to reward with ANTK tokens, a person who helped find your pet declared lost.

Activate function:

The AnimalNationTK Passport enables the lost pet feature in the app. This feature alerts app users that an animal has been lost in the geographic area where they are located.

The lost animal function provides access to a descriptive sheet of the animal with photos.

Identify a lost animal:

A person who encounters a lost animal will be able to carry out an identification with animal facial recognition and notify the owner of the presence of his animal.

Recompenses en ANTK:

The rewards will be paid directly to the wallet of the person who found the lost animal. Upon purchase, the AnimalNationTK Passport allows for a base reward level that can be increased by the pet owner.

The owner of the animal will then have to make a personal contribution in ANTK token.

Passport recharge:

The passport allows only one declaration of loss. It will be necessary to recharge this function by purchasing a "declaration of loss" card in the Marketplace.

PLAY TO EARN

Le concept de **Play To Earn** permet de jouer à un ensemble de jeux qui vous permettront de gagner des ANTK.

The different games:

The games offered will be related to the discovery of animals. The games will be renewed regularly, and they will be able to use the animal recognition module and augmented reality.

Games or tournaments, in the form of photo safaris, will allow you to discover the surrounding animals.

Access to games:

The games will be accessible from the Anin=malNationTK app.

Some will be free and will allow you to win ANTKs or invitations to paying tournaments.

Paid tournaments will be offered regularly, and they will allow the highest ranked players to win ANTK tokens.

It will be possible to register directly in paying tournaments on the condition of paying the registration with antk.

Rewards in ANTK:

Winnings in ANTK come from the tournament entry fee and will be split among the highest ranked players. A portion of the game registration fees will be distributed among the highest ranked players.

KEEP TO EARN

The concept of Keep to Earn allows you to reward with ANTK tokens, a person who keeps your animal while you are away and who regularly sends you photo using the AnimalNationTK application

Activate function:

To activate the Keep to earn function, the owner of the animal must buy a "Foster family" card in the marketplace.

This card allows you to activate the function and redistribute the ANTKs to the person who receives the animal during your absence

The "Foster Family" card

The "Foster Family" card is associated with the animal's AnimalNationTK passport.

Its energy level drops if the animal is not identified regularly. There are several levels of cards with increasing prices and increasing rewards depending on the number of photos you wish to receive.

Awards:

Part of the purchase price of the card will be automatically transferred to the person who keeps the animal.

To receive the rewards in ANTK, the person in charge of the animal must maintain the energy level of the "Foster Family" card by regularly taking photos of the animal.

Part of the purchase price of the card in ANTK will be automatically transferred to the Wallet of the person keeping the animal.

THE MARKETPLACE

AnimalNationTK will offer a marketplace allowing the purchase of various paid services such as:

- The AnimalNationTK passport
- The "foster family" card
- The "lost animal" refills

It will be possible to buy cards which give access to exclusive functions such as the 'zoo' card which will allow access to partner zoos for an exceptional visit.

The "zoo" card

Sponsor

sponsor an animal that you have identified and to regularly receive photos and videos

Identify

Identify an animal with animal facial recognition and access information and exclusive videos

Discover

Access exclusive services in zoos partners

We want to develop the marketplace to be able to offer:

- The purchase at preferential rates of animal mutual insurance from our partners
- The purchase of food and accessories at reduced prices in pet stores.

THE SAVINGS ACCOUNT AnimalNationTK

It will be possible for ANTK owners to place their tokens in an AnimalNationTK savings accounts to earn interest.

This AnimalNationTK savings accounts will be a smart contract deployed in the blockchain on the principle of staking. With this booklet, the ANTK will take its place in decentralized finance (DeFi). The rewards come in the form of more ANTK, meaning users increase their holdings of ANTK.

The user can withdraw at any time, all or part of his ANTKs placed on his AnimalNationTK savings accounts.

The interest rate evolves and is recalculated at every moment. It depends on the total volume of tokens deposited on the savings accounts.

Calculation of the monthly remuneration in ANTK:

$$\text{Monthly rewards} = \text{Total rewards to distribute} \times \frac{\text{tokens deposited on savings account}}{\text{Total savings accounts deposits}}$$

The funds allocated to feed the interests of the Animal Nation savings accounts are drawn from the 7.5% of tokens allocated to Rewards. Once the ANTK ecosystem is in place, funding can be provided by service fees.

Investors in the ANTK currency will be part of the ANTK community that will be called upon to make decisions relating to the token.

In particular, the ANTK community will be regularly asked to choose the associations that will have the funds recovered during the sales of NFTs on the marketplace. Members of the ANTK community will be able to take part in decisions relating to the various services that Animal Nation TK may offer.

The decisions submitted to the ANTK community will never concern the economy of the ANTK so as not to endanger the stability of the currency.

The Metaverse

Since the announcement of its creation, the Metaverse has emerged as the future virtual social environment.

Animal Nation TK's Metaverse will be the first virtual social universe entirely dedicated to the protection of animals.

Imagine the most beautiful parks in the world where you will meet wild animals.

Imagine the avatars of your pets participating in games where respect for the animal condition is central.

Imagine associations and real-life animals that can be helped by setting up activities in the metaverse.

The Animal Nation TK Metaverse will be developed if the ICO reaches the hardcap set in the tokenomics part.

technical SUPPORT

The complexity of the field of Cryptocurrency and its use could discourage neophytes. We have decided to help them as much as possible in the discovery of this universe by setting up tools to answer their questions.

personalized Assistance

The technical team will answer all questions on the ANTK Twitter account

Blog

Educational articles on the world of crypto will be offered regularly on the blog of the ANTK site.

Discord Servers

A Discord server will offer a help space with the presence of members of the technical team.

Newsletter

A weekly Newsletter will be accessible to ICO participants and then to ANTK owners, to provide all the necessary information.

TOKENOMICS

Animal Nation Token : ANTK

The ANTK token which is the contraction of AnimalNationTK is a cryptocurrency that will be created on the Ethereum blockchain according to the ERC-20 standard. This standard guarantees the security and compatibility of the token with all existing wallets (Meta mask, Trust wallet, etc.) and once purchased, the token can be secured on a hard wallet, such as Ledger or Trezor for example.

Name :	ANTK
Symbol :	ANTK
Decimals :	18

Total Supply:

The number of ANTK tokens that are created will be 8,000,000,000.

Burns :

ANTK is a non-mintable token, so no more can be created. To reduce the number of tokens in circulation and support the price of the token, an automatic burn policy will be implemented.

5% of purchases made in the AnimalNationTK Marketplace will be automatically burned, in order to constantly reduce the number of tokens in circulation (circulating supply) and thus increase the scarcity of the ANTK token.

TOKENOMICS

Allocation of Tokens

TOKENOMICS

Allocation of Tokens

Private Sale: 6,3% of the tokens will be reserved for the very first private investors.

Public Sale: 50% of the tokens will be offered for sale during the ICO.

Pool : 3,8% of the tokens will be used to list the token on the decentralized exchange (DEX) Uniswap. These tokens will be locked in the Uni swap pool for a period of 12 months. Once unlocked, these tokens will be transferred to the reserve.

Development: 9,8 % of the tokens will be allocated to the development team for the realization of the ICO and the development of the ANTK universe described in this white paper. These tokens will be unlocked in increments of 5% for 20 months.

Réserve: 22,6% of the tokens will be placed in a reserve. They will be used to carry out burns, to be injected into the ANTK ecosystem in the future, to finance a listing on a centralized exchange or to finance marketing campaigns...

Rewards/Airdrops: 7,5% the tokens will be dedicated to funding the AnimalNationTK booklet as well as Airdrops and other rewards.

TOKENOMICS

Verification of the source of funds

We set up for the ICO, a decentralized KYC solution on the blockchain: Sum sub. The Sum sub company aims to detect falsified documents intended to commit financial fraud. Since 2016, it has focused on KYC after implementing remote identification functionality for Bitcoin wallet creators. Among its customers, we find companies such as Uber, Blablacar or Hyundai.

Code Audit

Crypto4All will audit the ICO's smart contract code, to ensure it follows the best security practices. The code of the ECR20 smart contract of the future ANTK as well as all the other smart contracts deployed thereafter will be audited by Crypto4all.

TOKENOMICS

ICO

A total of 4,500,000,000 ANTKs with preferential conditions will be offered during the private and public ICO sales.

Initial sales must raise a maximum of \$6.5 million.

A minimum of \$500,000 must be raised to ensure the launch of the project. If this sum were not to be reached, the funds would be returned to the investors.

The first \$3,000,000 will be used for the development of the ANTK ecosystem.

A first hardcap is therefore set at \$3,000,000. The funds collected beyond this hard cap, and only, will be entirely dedicated to the development of the Metaverse. This hard cap therefore constitutes a minimum to be reached to begin the Metavers project.

Softcap :	500 000 \$
Hardcap :	3 000 000 \$
Extracap :	6 000 000 \$

The purchase of the ANTK will be made exclusively by cryptocurrency, two cryptocurrencies are accepted:

- ETH : Ethereum
- USDT : Stablecoin

TOKENOMICS

Private sale

A private sale will be organized with the direct or professional entourage of ANTK. 500,000,000 tokens will be available for sale.

The private sale will be organized over a period of 20 days in three buying phases with a limited number of tokens per phase.

When all the tokens of a phase are sold, the next phase is immediately activated.

The price of the token increases during a phase change.

A vesting will be set up and its duration will be relative to the amount invested.

During the 3 phases of the private sale, the maximum investment ceiling is \$100,000.

Phase 1

Token price: \$0.0006

Number of tokens: 100 000 000

Minimum amount: \$250

Phase 2

Token price: \$0.0008

Number of tokens: 100 000 000

Minimum amount: \$100

Phase 3

Token price: \$0.001

Number of tokens: 300 000 000

Montant minimum: \$10

TOKENOMICS

Public sale

4,000,000,000 tokens will be offered for sale during the public sale.

The public sale will be organized over a period of 6 weeks in three buying phases with a limited number of tokens per phase.

When all the tokens of a phase are sold, the next phase is immediately activated.

The price of the token increases during a phase change.

A vesting will be set up and its duration will be relative to the amount invested.

Phase 1

Token price: \$0.0012

Number of tokens: 700 000 000

Minimum amount: \$250

Maximum cap: \$150 000

Phase 2

Token price: \$0.0015

Number of tokens: 700 000 000

Minimum amount: \$100

Maximum cap: \$150 000

Phase 3

Token price: \$0.0018

Number of tokens: 2 600 000 000

Minimum amount: \$10

Maximum cap: \$ 150 000

TOKENOMICS

First investors bonus

To reward the first investors, during the private and public sales of the ICO, ANTK tokens will be distributed as a bonus to be shared between the first investors according to the amount invested.

Amount invested	> \$500	> \$1500
Bonus Percentage	6,5 %	10,0 %

The bonus operation will be completed when:

- 10 000 000 of ANTK will have been distributed as a bonus during the private sale
- 50 000 000 de ANTK will have been distributed as a bonus during the public sale

TOKENOMICS

Vesting

ANTK tokens will begin to be distributed a few weeks after the end of the ICO and before listing on Uniswap.

A vesting will be set up with a gradual release of the tokens for a period that will depend on the amount invested. Private sale investors will get their tokens following the same vesting rules as the public sale.

Montant investi	Less than \$1500	Over or equal to à 1500\$
Duration of vesting	90 jours	180 jours

During the vesting period, the tokens will be placed on the AnimalNationTK savings account, and they will generate interest. This interest will be distributed at the end of the vesting period.

Vesting with gradual release:

Every day, a portion of tokens will be released and these tokens can be taken out of the AnimalNationTK savings Account.

TOKENOMICS

Vesting

Example of releasing ANTK tokens for a total investment of \$100 with a token purchase price giving access to 100,000 ANTK tokens with linear vesting over 90 days: Every day, $100,000/90$ tokens will be released and can be taken out of the AnimalNationTK savings account.

Number of tokens available

Day 1	1111 ANTK
Day 2	2222 ANTK
Day 3	3333 ANTK
...	...
Day 90	100 000 ANTK

Example of releasing ANTK tokens for a total investment of \$2000 with a token purchase price giving access to 2,000,000 ANTK tokens with a linear vesting over 180 days: Every day, $100,000/180$ tokens will be released and can be taken out of the AnimalNationTK savings account.

Number of tokens available

Day 1	11111 ANTK
Day 2	22222 ANTK
Day 3	33333 ANTK
...	...
Day 180	2 000 000 ANTK

TOKENOMICS

ANTK not sold at the end of the ICO

Listing and liquidity pool

When the ICO is complete, a listing on the decentralized exchange Uni swap will be made. The pair ANTK/USDT will be offered and the price of ANTK will be fixed at 0.003 USDT at the time of listing.

A liquidity pool will be created and it will contain both ANTK and USDT tokens in the same quantity in relative value. It will then be possible to buy or sell ANTK tokens at the market price depending on supply and demand.

TOKENOMICS

Liquidity contribution

Initial funds in USDT will come from ICO revenue, up to 15% of the funds raised and with a maximum of \$900,000.

The initial funds in ANTK will be drawn from the 3.8% allocated for this title.

The necessary quantity of ANTK will depend on the amount available in USDT following the ICO, to respect the listing price.

If the hard cap is reached or exceeded then the amount in USDT that will be allocated to the pool will be \$900,000.

Listing platform	Uniswap
Pair	ANTK/USDT
ANTK volume	300 000 000
USDC volume	900 000
Initial Price	1 ANTK = 0,003 USDT

The funds allocated to the pool will be blocked at 50% for one year, 25% for 2 years and 25% for 3 years.

TOKENOMICS

Staking campaigns

Staking campaigns to maintain the liquidity of the pool at a high level may be carried out, allowing people who have participated in these campaigns to earn interest in ANTK.

Rewards pool management

AnimalNationTK passports, the AnimalNationTK booklet and some free games in Play-to-Earn will need to feed the Rewards pool to distribute the rewards in ANTK. To do this, part of the purchases made on the AnimalNationTK Marketplace will go to the Rewards pool:

5%

Burn

5% of the tokens of the transaction will be burned to maintain the level of the currency

20%

Marketing and development

20% of tokens will allow to develop marketing and the team for Improve the platform

75%

Pool de Rewards

75% of the tokens will be used to supply the pool of rewards

Paid games will be organized in tournament mode and the remuneration of the winners will come directly from the registration fees.

The other functions of the application (Keep to Earn and Find to Earn), will not require the use of the rewards pool because the rewards will be paid by the user when purchasing the service.

ROADMAP

Appendices

Terms of Sales ICO General subscription conditions

1- The ANTK cryptocurrency

1.1 The ANTK is a "Token" which is an immaterial counterpart that all ICO

Subscribers will receive: with these Tokens, you will be able to access existing services or products or future developed in the Animal Nation TK ecosystem.

1.2 Within the meaning of Article L 552.2 of the Monetary and Financial Code, the ANTK is a Token known as "Utilitarian", that is to say that it has a predefined use in advance. An ANTK token thus constitutes a usage token similar to a voucher.

1.3 The purchase of the ANTK does not give the right to ownership of titles, shares or participations in the capital of the company ANTK. It does not further entitle the holder to shareholder or associate status, to profit sharing, to participation in ordinary and extraordinary meetings of the company ANTK, or any other equivalent right.

1.4 Any subscription necessarily implies that you have understood and accepted all the explanations, conditions offered and that you have become aware of the usefulness of the ANTK by reading the White paper available on the antk.io site.

2- ICO subscribers

2.1 Subscription to the ICO is reserved for people of legal age and capable.

2.2 Subscription to the ICO is open to natural and legal persons, individuals, nonprofessionals (within the meaning of the introductory article of the Consumer Code) as well as professionals.

2.3 The Subscriber must fulfil the subscription conditions under penalty of cancellation after verification.

2.4 It is up to the subscribers, before any subscription of tokens, to check that they can subscribe to this public offering of tokens without contravening the national regulations to which they are subject.

3- Services associated with the ANTK

3.1 The services described in the white paper are described for information only.

The subscriber acknowledges accepting that the services may vary greatly depending on the success of the ICO.

3.2 Acceptance of general conditions will be required for access to the services.

Appendices

5- Validation of ANTK purchases

5.1 The purchase of ANTK during the ICO requires the acceptance of the General Conditions of Subscription.

5.2 The subscription is definitively recorded if the payment transaction is accepted. You will receive a confirmation email indicating the elements of the subscription.

5.3 If the ICO does not achieve its soft cap objectives specified in the white paper, the investments you have made are reimbursed. Any reimbursement of crypto-assets to the Subscriber will be made after deduction of transaction and commission fees related to fund collection and custody operations. The Subscriber waives the right to claim compensation from SASU ANTK corresponding to a variation in the value of the crypto-assets invested between the date of subscription and that of reimbursement.

6- ICO subscribers

6.1 Subscription to the ICO is reserved for people of legal age and capable.

6.2 Subscription to the ICO is open to natural persons and legal persons,

6.3 The ANTK company assumes no responsibility for subsequent transactions of ANTK tokens carried out outside the ecosystem set up to use it natively.

7- Right of withdrawal

7.1 You have a withdrawal period of 14 days to cancel the subscription. This period begins the day after the day of receipt of the subscription confirmation email. If the end of the period is a public holiday, it is extended to the next working day.

7.2 To withdraw, you can send us a request by email to contact@antk.io. This request will be processed as soon as possible and you will receive your refund within thirty days of receipt of the withdrawal email.

8- Non-application of the rules of the consumer code to tokens

8.1 Article L54.10.1-1° of the Monetary and Financial Code defines the Utility Token as a "digital asset".

8.2 Article 224-25-3-II-7° of the Consumer Code provides that the provisions appearing in section 2 bis relating to contracts for the supply of digital content and digital services (articles L224.25.1 to L224.25.32 of the consumer code) are not applicable to utility tokens.

8.3 If the company ANTK is bound to the customer by a guarantee of conformity on the basis of the civil code (cf. Article 1641 of the Civil Code), the Customer acknowledges being informed that the rules relating to the legal guarantee of conformity provided for by the Consumer Code therefore do not apply to the ANTK token.

8.4 No lack of conformity related to a speculative or conversion operation with a fiduciary currency and/or other crypto-assets may be invoked against the ANTK company to incur its liability.

9-Availability of the ANTK token

9.1 The ANTK token is a digital product and it has no material representation.

9.2 The ANTKs acquired by the Customer are effectively transferred to him within a maximum period of 3 weeks beginning to run from the placing of the purchase order.

Appendices

10- Necessary information

10.1 The personal data that we must collect to conclude the subscription contract and allow you to acquire ANTK are as follows: Full name, First name, Date of birth, Nationality, Full address, Passport number or identity document, Company Name. We will also ask for an e-mail address and a telephone number.

10.2 The use of this data cannot be for commercial purposes except with your agreement. We will use your data for accounting and legal purposes as well as to allow access and use of the services offered by the company ANTK.

10.3 The GDP (General Regulation on the Protection of Personal Data or REGULATION (EU) 2016/679 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and the free movement of such data) and the French law of January 6, 1978 protect your personal data.

10.4 The data you provide to us will be hosted on the servers of Sum And Substance Ltd (United Kingdom).com, a company incorporated under English law whose registered office is located at 30 St. Mary Axe, London, England, EC3A 8BF.

10.4 To concretely exercise your rights relating to your data, you must send your request to us at the following address: SASU ANTK, 13 rue Auguste Gervais 92130 Issy les Moulineaux.

11- Professional underwriters

11-1 Anyone subscribing to the ICO as a professional does not benefit from the withdrawal period.

11-2 By accepting these general conditions, any professional subscribing to the ICO waives, in the event of a dispute with SASU ANTK, to invoke the consumer protection rules and in particular the rules of the Consumer Code for their benefit.

12- Information on risks

12.1 Subscribing to an ICO presents a risk of capital loss: the capital invested in the ICO is not guaranteed. The investment you make presents a significant risk of capital loss.

12.2 The White paper provided by SASU ANTK cannot, under any circumstances, be assimilated to a legal or regulatory information document subject to prior control by the AMF. You do not benefit from any of the legal guarantees associated with IPOs on regulated financial markets or other financial investments regulated by the AMF.

12.3 SASU ANTK is only bound by an obligation of means within the framework of the ICO: this means that it does not guarantee the success of the ICO but puts all reasonable means at its disposal to achieve the objectives targeted by the White paper.

12.4 The value of ANTK tokens can be very volatile, subject to considerable variations and largely unpredictable. In addition, the markets on which these Tokens are traded do not benefit from the guarantees generally applicable to the financial markets.

13- Taxation

13.1 The control and the respect of the tax legislation is your responsibility: by accepting these general conditions, you renounce to engage the responsibility of the company ANTK for all the tax consequences likely to result from a violation by your care of the laws and regulations.

Appendices

14- Fight against money laundering

14.1 To fight against the risk of money laundering, we notably set up information verification procedures called KYC and AML.

14.2 The subscription to the ICO requires that you do not answer all the information that is requested to help fight against the risk of money laundering.

14.2 In the event of loss of the identifiers provided by SASU ANTK during the verification procedures, you must contact us at the following address: contact@antk.io.

15- The website and its access

15.1 SASU ANTK cannot be held responsible for problems related to the user's connection to the Internet, to computer viruses, or to any malicious acts carried out via the Internet, when connecting to the antk.io site.

15.2 SASU ANTK cannot be held liable for the possible consequences of the unavailability of the service due to a maintenance operation or update of the services.

15.3 SASU ANTK reserves the right to modify, replace, refuse access, suspend or interrupt the Website and all the services associated with the ANTK ecosystem partially or entirely from the moment that the general economy of the ICO is respected and that the ANTK remains a Token usable for the purposes of consideration for goods and/or services.

15.4 The unauthorized copying or use of the elements present on the site is punishable by articles L.3335-2 and following of the Intellectual Property Code on counterfeiting.

Appendices

Legal and tax aspect

1- Legal aspect

ANTK is a simplified joint-stock company with a capital of €2,000, registered with the Nanterre Trade and Companies Register under number 917 844 979, whose head office is located at 13ter, rue Auguste Gervais 92130, Issy les Moulineaux.

The Chairman of ANTK is Gilles Arnal, who owns 100% of the company's capital. The contact details of the company are as follows:

ANTK Company

13ter, rue Auguste Gervais 92130, Issy les Moulineaux Email: contact@antk.io

Website: antk.io

ANTK is not aware of any internal or external situation likely to generate a conflict of interest that could significantly influence the public offer of tokens, harm the public or the smooth running of the ANTK project.

1.2 The ICO

The public offering of ANTK tokens is not subject to any visa, approval, authorization, licence, registration or approval requirements. It is up to the subscribers, before any subscription of tokens, to verify that they can subscribe to this public offering of tokens without contravening the national regulations to which they are subject.

1.3 Rights and obligations in relation to the ANTK token

An ANTK token is a utility token similar to a voucher. Payment in ANTK will allow subscribers to purchase goods and services, and to benefit from exclusivity in the ANTK ecosystem. In the event that ANTK is listed on a digital asset exchange platform, ANTK holders will also be able to buy and/or sell ANTK at prices set according to supply and demand.

The purchase of ANTK does not give the right to ownership of titles, shares or participations in the capital of the company ANTK. It does not give right to the status of shareholder or partner, to profit sharing, to participation in ordinary and extraordinary meetings of the company ANTK, or any other equivalent right.

Appendices

Legal and tax aspect

The ANTK company draws the attention of subscribers to the general risks associated with the purchase of tokens. During the public offering of ANTK tokens: If the public offering of tokens does not achieve its objective, subscribers will be fully reimbursed for the amounts of their subscriptions after deduction of transaction and commission costs related to fund collection and custody operations.

During the subscription period, a register of subscribers and funds collected is kept. The transfer is made directly from the smart contract used for the ICO to the subscriber's address. If the information provided for reimbursement during subscription was incorrect or incomplete, the risk of non reimbursement is borne by the subscriber.

The risk of variation in the exchange parity of the digital assets towards the Euro or the USD, between the subscription and the reimbursement is carried by the reimbursed subscriber.

After the public offering of ANTK tokens: insofar as it is not possible to guarantee the success of the project, subscribers are warned that they may lose all or part of the investment made.

Subscribers should therefore carefully consider whether the purchase of ANTK is appropriate with regard to their situation and their financial resources.

1.5 Applicable law

The law applicable to the issuer and to this public offering of tokens is French law.

2- Tax aspect

2.1 Income taxes

In application of the law (article 150 VH bis of the general tax code), natural persons who carry out transactions involving the transfer of digital assets for consideration are subject to income tax.

It is up to each subscriber to be assisted by the counsel of his choice to know the tax treatment adapted to his particular situation.

2.2 VAT

SASU ANTK is subject to VAT at the rate in force. Value added tax applies and is charged to subscribers when they use the ANTK in exchange for products or services sold by SASU ANTK.

ANTK
